

My wife and I listen to Air 1 and love it!! There are no local Christian radio stations that can reach young people like this one. PLEASE DO NOT TAKE AWAY OUR RADIO STATION!! This is the only listener supported radio station that my wife and I donate money out of our meager budget! I would hate to see Air1 be replaced with whatever kind of station, just because it operates on a translator. We are concerned about the kinds of stations that may replace Air1 all over the country. We are worried about other national broadcast, listener supported radio stations. Many of these are Christian stations that bring music and messages that can enhance life, and is not offensive or questionable. I think to prevent these national stations translator service, is to prevent a broadcasting that does not have to censored, unlike Howard Stern, or the Bob and Tom show, and countless other inappropriate shows. Please continue to allow all of these stations to keep their broadcast priority. Thank you.
